

HiDHA[®] gummies

Product application

DHA is an essential ingredient in supporting many functions from early childhood, including brain health and development, strong vision and good heart health.

Gummies manufactured with Nu-Mega Ingredients™ microencapsulated HiDHA[®] are one of the easiest ways to deliver an ultra-high level of DHA with an excellent sensory profile.

Driphorm[®]

Driphorm[®] HiDHA[®] 360 (D307) can provide 75mg DHA and 6mg EPA per gummy. Just four gummies meet the European Food Safety Authority (EFSA) health recommendation for good brain health of 250mg DHA / day for children aged two to 18 years. EFSA also recommends a daily intake of 250mg of DHA in combination with EPA to maintain normal heart function in adults.

Driphorm[®] HiDHA[®] 360 (D307) has the highest concentration of marine-based DHA powder on the market. For children and adults with allergies or preferences for plant-based supplements, Nu-Mega Ingredients™ also offers dairy-free Driphorm[®] HA HiDHA[®] 300 marine powder, and Driphorm[®] HA DHA-S-200 algal powder which is dairy-free and vegan.

Driphorm[®] HiDHA[®] 360

- ✓ Ultra-high DHA levels compared to similar products.
- ✓ Microencapsulation technology delivers 60% oil load and 36% active DHA.
- ✓ Multiple product development opportunities for nutritional foods and beverages, including gummies, meal replacement and sports bars, bakery and dairy products.
